THE NEW SCIENCE OF DRUGLESS HEALING

All Diseases Successfully Treated. Consultation Free.

The only Osteopathic College in the Northwest with a complete equipment for giving a full course in Osteopathy.

COURSE TWENTY MONTHS IN LENGTH. The next class will open on THURSDAY, SEPTEMBER 1, 1898.

For full information apply to L. M. RHEEM, Sec., Globe Bld., Minneapolis, Minn.

Send for sample copy of the "Northern Osteopath." Mention this paper.

We enumerate a few of the many advantages.

1st—We will give our students actual dissection on the cadaver under the instruction of competent demonstrators.

2d—We follow the idea that an Osteopath's best knowledge is his experience—therefore we give him double the amount of operative clinics given by any other Osteopathic school.

3d—Our students will have free access to the large public library, with all its privileges. This library contains thousands of volumes of the best and latest references in print.

4th—Location. You will find in another column an article by the publishers of THE COSMOPOLITAN OSTEOPATH on why Des Moines is the ideal home for an institution of this kind as well as for the student.

For further information in regard to terms, etc., call on or write to

W. L. RIGGS, Dean.
